

LEONARDO PRECZEVSKI RAMOS

Software Developer | Java

PROFILE

Software Developer with a strong interest in Java development, specializing in Spring Boot and Microservices. Currently working as a Java Developer, developing applications using Java and the Spring Boot framework. Passionate about technology since high school, I began studying software development during the pandemic. I hold a Bachelor's degree in Information Systems from PUCRS, have English as my second language, and possess knowledge of Web Design and Scrum methodologies.

SKILLS

- Java 8, Java 17, and Java 21
- Spring Boot 3
- Microservices
- Apache Kafka
- RabbitMQ
- Qlik Replicate
- Docker
- Oracle SQL
- Microsoft SQL Server
- REST APIs
- Git & GitHub
- JUnit
- JSON & Apache Avro
- Agile Methodologies (Scrum)
- Legacy System Integration
- CI/CD Pipelines
- Data Replication & Performance Optimization
- Azure DevOps
- Professional English

EDUCATION

Pontifical Catholic University of Rio Grande do Sul (PUCRS)

BACHELOR'S DEGREE IN INFORMATION SYSTEMS - 2022 - 2025

PERSONAL INTERESTS

Technology, business, travel, financial markets, and music.

PROFESSIONAL EXPERIENCE

Eldorado Research Institute

MID-LEVEL SOFTWARE DEVELOPER
JAN 2026 – PRESENT | HYBRID

- Full Stack Developer allocated to Dell Technologies, responsible for developing new features and maintaining enterprise software solutions.

Unicred do Brasil

JUNIOR SOFTWARE DEVELOPER
APR 2025 – DEC 2025 | REMOTE

- Developed and maintained Java 17/21 microservices using Spring Boot.
- Migrated legacy applications from Java 8 to modern versions, improving performance and maintainability.
- Designed and implemented a data replication solution using Qlik Replicate and Apache Kafka, enabling data previously accessed through a central integration service to be replicated to consumer microservices with local databases, reducing service calls and improving system performance.

SOFTWARE DEVELOPER INTERN
SEP 2024 – APR 2025 | REMOTE

- Developed backend solutions focused on REST APIs, event-driven architecture, and system integrations.
- Worked with Apache Kafka, Microsoft SQL Server, and Docker.

FULL STACK INTERN
FEB 2024 – SEP 2024 | ON-SITE

- Developed a complete financial dashboard featuring expense tracking, charts, and user insights.
- Technologies used: Java (Spring Boot), React, TypeScript, MySQL, and Docker.
- Deployed the application to Google Cloud Platform (GCP), including Docker image creation for backend and frontend services and containerized MySQL deployment.

CERTIFICATIONS

Alura – Java Development Learning Track (2020–2023)

- Java with Spring Boot 3
- Microservices with Java, Spring, and RabbitMQ
- Automated Testing with TDD and JUnit
- React with JavaScript – Front-End Fundamentals

Full Stack Java Program Certificate (2025)

Unicred

- Developed a financial dashboard using Java, React, Docker, and Google Cloud Platform (GCP) as part of the internship program.

Final Course Project

- Developed a full-stack application using Spring Boot and React.

Scrum Foundation Professional Certificate (SFPC™) (2020)

CertiProf (Portuguese)
